Encore was the most amazing band I could have asked for! Liz and Gus are amazing people and very easy to work with. They were both eager to make our day exactly what we dreamed of. My father (Father of the groom) was very adamant about having a big band for the reception. He wanted it to be entertaining for both the grandparents and younger crowd. That is exactly what it was!! The dance floor was full the whole entire night. Liz even came on to the dance floor to sing and dance! Many people told us the band made the reception and we agree!!! Awesome Job Encore!!!

We cannot say enough great things about Encore! Our main goal for our wedding was to have a packed dance floor, and the band delivered. Three months after the event, our friends still comment on how great the music was. Liz was so helpful in planning our event. She took the time to understand the evening's timeline and our priorities. She listened to our concerns and eased our minds as we talked through each issue. Of course, she paid close attention to the special songs we wanted to hear. Her communication throughout the process really brought our stress level down! Our wedding was the most memorable night of our lives, and Encore was a huge part of that. They are such talented musicians who care about bringing top notch entertainment. I will never forget dancing with ALL our friends and family! Thank you Encore!
